

# **SPECIAL TRAIN MOVEMENT**

## **EMERGENCY DRILL AT PENNSAUKEN STATION – SATURDAY, NOVEMBER 21, 2020**

TO: Distribution

FROM: Rail Service Planning

DATE: November 19, 2020

**On Saturday, November 21, 2020, NJT Rail will support an emergency drill at Pennsauken Station involving NJ TRANSIT Police and other first responder agencies.**

### **To support this program:**

- NJT Rail will provide a consist that will be stationed on Track 2 (normally the Philadelphia-bound track) at Pennsauken Station.
- NJ TRANSIT Atlantic City Line trains will bypass Pennsauken Station while the drill takes place – from approximately 8:30 a.m. until 12:30 p.m.
  - Trains will operate on Track 1 in both directions through Pennsauken Station during the drill. Because of the single-tracking, NJT Rail will coordinate with Amtrak to hold southbound (to Atlantic City) trains at Shore Interlocking when necessary to allow northbound (to Philadelphia) trains to operate through Pennsauken without delay. Southbound trains may be delayed by up to 10 minutes during this period.
  - Pennsauken customers traveling to/from Philadelphia will be directed to use NJ TRANSIT's No. 419 Bus between Pennsauken (stop on River Road and Derosse Avenue) and Walter Rand Transportation Center (WRTC), then use any NJ TRANSIT bus between WRTC and Philadelphia.
  - Pennsauken customers traveling to Atlantic City Line stations in New Jersey will be directed to Cherry Hill Station, where rail service will be available.
  - Customers traveling from Atlantic City Line stations in New Jersey to Pennsauken will be directed to exit the train at Cherry Hill Station, walk to the bus stop at Route 70 and Cornell Avenue and board NJ TRANSIT's No. 406 Bus to the WRTC. From the WRTC, customers can use the No. 419 bus to Pennsauken.

**Please use Work Order Number L059170 for all additional costs related to this program, for which details and the supervision list follow.**

## RAIL OPERATIONS

### Equipment/crew to support the Pennsauken drill

A full extra crew – signing up in Atlantic City – will operate the spare (fourth) set to Pennsauken using non-revenue move X450 (according to the attached employee schedule extract) and remain in Pennsauken until the conclusion of the drill.

After the drill concludes, the crew will operate the equipment as directed.
