To the Officers and Members of Smart TD

Brothers and Sisters of SMART TD,

I am hopeful that you are safe and healthy. During the past year, we have seen many members who were hurt on the job and members who died whether from accident or natural causes. Members who suffered through the Pandemic and those who succumbed to the virus. We have continued to pay claims and provide scholarships to the children of our members as we have for 152 years. Through this time, we have continued to make changes that will serve to strengthen our Association and better serve our members. We extended premium grace periods for those members who found themselves in financial difficulty and made policy loans to others. We supported our members further through our donations to various charities and to the SMART TD Disaster Recovery Fund. We continued to write insurance remotely using our new secure electronic application and policy delivery platform.

As we emerge from the Covid Pandemic, we want to make you aware of changes that have taken place which will help us to serve our members and ensure that all our members have the proper insurance to protect themselves and their families. The first change occurred with the structure of our field agents. The Field Supervisor (FS) has been changed to Regional Insurance Manager (RIM) a map and details follow below. Additionally, we have added the positions of Territory Manager (TM) and Assistant Territory Manager (ATM) to assist, along with Local Insurance Representatives (LIR's), in ensuring that all locals have UTUIA representation. These changes are all designed to better increase our visibility to the membership and ultimately our hope is that with more "boots on the ground" our members will see the greater value that the UTUIA represents to the SMART TD family.
