## Letters and Symbols

***Unless otherwise shown, schedule time at the station is the leaving time. Letters prefixing a schedule time will indicate:***

- A** ..... Arrival time.
- D** ..... Stop to discharge passengers only. May leave ahead of schedule.
- E** ..... Employee stop. May leave ahead of schedule.
- H** ..... Hold for connection unless otherwise authorized by dispatcher.
- L** ..... Stop to receive and discharge passengers. May leave up to three minutes ahead of schedule. Connections must be protected.
- LV** ... . Stop to receive and discharge passengers. Departs at the time listed in this schedule. (NOTE: The public timetable shows the departure time one minute earlier, but crews must use the time listed in this employee schedule for their departure).
- M** ..... Stop to receive and discharge passengers at Monmouth Park.
- R** ..... Stop to receive passengers only.
- R\*** ..... Stop to receive passengers only. May leave up to three minutes ahead of schedule.
- S** ..... Stop to receive and discharge passengers.
- S\*** ..... Stop to receive and discharge passengers. May leave up to three minutes ahead of schedule.

***Letters prefixing the train's schedule number will indicate:***

- A** ..... AMTRAK train.
- S** ..... SEPTA train.
- X** ..... Scheduled train that does not carry passengers.

AMTRAK and SEPTA schedules in this publication are for informational purposes only.

## **APPENDIX A – NEWARK DIVISION EMPLOYEE SCHEDULE**

This instruction may be put into effect by verbal or written authority as a result of any major service disruption on the Northeast Corridor. Its purpose is to enable employees and passengers to easily understand stopping patterns of trains during service disruption. When in effect, Appendix A will supercede all published employee and public schedules until employees are notified otherwise by verbal or written authority that Appendix A is no longer in effect.

### **APPENDIX A: THIS METHOD OF OPERATION DURING SERVICE DISRUPTIONS IS IN EFFECT ONLY WHEN DIRECTED BY THE DEPUTY GENERAL MANAGER – TRANSPORTATION**

When Appendix A is in effect, Newark Division crews of eastward trains terminating at Penn Station and westward Newark Division trains arriving Penn Station from Sunnyside Yard will remain with their equipment and be governed by instructions received from NJ TRANSIT Transportation supervision.

During such time that Appendix A is in effect, the following will apply for westward Newark Division trains only:

Schedule stops shown in the employee timetable schedule pages modified as indicated below. Trains will depart Penn Station at the direction of Transportation supervision. Trains enroute from New York to Newark Penn Station may be notified via radio that Appendix A is in effect, and when so notified, will comply with the modified schedule stops noted below.

#### **Northeast Corridor:**

- When notified that Appendix A is in effect, all trains destined Trenton will make all local stops Secaucus west to Trenton. Note: Trenton trains originating Hudson or MMC will make all local stops Newark Penn Station west, to Trenton.
- When notified that Appendix A is in effect all trains destined County will make all local stops Secaucus west, to Jersey Avenue.

#### **North Jersey Coast Line:**

- When notified that Appendix A is in effect, all trains will stop at Secaucus, Newark Penn Station, Rahway, and then all local stops on the NC west to Long Branch.  
**NOTE:** NC trains originating Hoboken are excluded from Appendix A and will make normal stops as indicated in the Employee Timetable.

#### **Emergency Schedules:**

During service disruptions, NJ TRANSIT may implement emergency schedules as part of Appendix A to operate passenger extras destined Newark Division for NE and NC services. Such trains will be governed by the stopping patterns noted above for each service. These passenger extras will be identified as indicated below.

- Northeast Corridor trains will be identified as Trenton or County passenger extras. These trains will be identified via the TIMACS system as "NJTX\_\_" and "NJCX\_\_," respectively, with appropriate number designation following the letters. For example, the first Trenton passenger extra will be identified as "NJTX01"; the next will be "NJTX03," etc.
- North Jersey Coast Line trains will be identified as Long Branch Passenger extras. These trains will be identified via the TIMACS system as "NJLX\_\_" with appropriate number designation following the letters. For example, the first Long Branch passenger extra will be identified as "NJLX01"; the next will be "NJLX03," etc.

#### **Train Announcements**

When this SI is implemented, Conductors of affected trains will announce the destination and stops to be made by the train. If knowledgeable of the reason for the service disruption and resultant service modifications, the Conductor must include this information in the announcement as well.

These announcements will be made prior to and immediately after departure from the originating terminal. These announcements will also be made prior to arrival and departure at all enroute stations.

#### **Train Designation Signs and Annunciators**

Conductors must ensure that train designation signs and annunciators are programmed as per the instructions noted in TRO-12 part 1.1.25. When Appendix A is in effect for a train the following schedule numbers must be utilized to program the equipment:

NE westbound Trenton trains: input schedule number 3883.  
NE westbound Jersey Avenue trains: input schedule number 3719.

NC: there are no schedules that mirror this station stop pattern. Conductors are to disable the designation signs and annunciators.

### MEASURING FLAT SPOTS

The following information is provided for crewmembers when they determine that their train has one or more measurable flat spots. It is taken directly from the 9th Edition of the NORAC Rulebook.

Crewmembers responsible for measuring flat spots must obtain “3 STEP PROTECTION” as outlined in TRO-5, Safety Rule 350, and they must have updated job briefing to discuss the method of operation based on the measurement(s) taken.

## NORAC OPERATING RULE

### 71. Flat Spots

If a flat spot on a wheel of a car or engine develops en route, a member of the crew must inspect it. Upon completion of inspection, the train will be governed as follows:

- a. **Proceed at Normal Speed:** The train may continue at Normal Speed if no other defects affecting movement are observed, AND if:
  1. The flat spot is less than 2½ inches in length.
  - or
  2. If there are 2 adjoining spots, each is less than 2 inches in length.
- b. **Proceed at 10 MPH:** If a flat spot is found in excess of either of the above dimensions, but less than 4 inches, and no other defect is observed, two actions must be taken:
  1. Speed must not exceed 10 MPH.
  2. A report must be made promptly to the Dispatcher or Operator.
- c. **Remain Stopped:** If a flat spot of 4 inches or greater is found, the train must remain stopped until a report is made to the Dispatcher or Operator. When determined safe for movement, the Dispatcher (or Operator when authorized by the Dispatcher) will order the car or engine to be set out at the first available siding or terminal.
